

Lesson 3.1: Adding and Subtracting Fractions

Targets

1. I can add fractions with unlike denominators.
2. I can subtract fractions with unlike denominators.

Adding Fractions: Different Denominators

First, attempt these problems on your own. Then watch the video and copy the notes.

Your attempt:

$$\frac{4}{9} + \frac{11}{12} =$$

Video Notes:

$$\frac{4}{9} + \frac{11}{12} =$$

Khan Activity: Adding Fractions with Unlike Denominators

Complete this activity on Khan.

Subtracting Fractions: Different Denominators

First, attempt these problems on your own. Then watch the video and copy the notes.

Your attempt:

$$\frac{7}{12} - \frac{6}{13} =$$

Video Notes:

$$\frac{7}{12} - \frac{6}{13} =$$

Khan Activity: Subtracting Fractions with Unlike Denominators

Complete this activity on Khan.

Exit Ticket

1. Have all your notes filled out above.
2. Complete the following Khan Academy Activities: Adding Fractions with Unlike Denominators
3. Complete the following Khan Academy Activities: Subtracting Fractions with Unlike Denominators
